

## **MONGOLIAN NATIONAL ANTI-DOPING AGENCY**

### **TESTING STATISTICS FOR YEAR 2022**

Mongolian National Anti-Doping Agency (MONADA) is the central anti-doping organization in charge of carrying out test and result management as well as developing education program in Mongolia.

In 2022, MONADA administered a total number of 220 doping control tests. Of those tests, 177 doping control tests were conducted during various competitions and events organized in Mongolia and 43 Out-of-Competition (OOC) tests conducted in 2012. OOC testing typically occurs at the athlete's training facility or other location and is performed with no advance notice to the athlete. As Out-of-Competition testing is widely considered to be the most effective method of deterrence, we should focus on conducting more OOC tests next year.

Out of 220 tests, 94 were conducted on the Mongolian traditional sports, which are traditional wrestling and traditional archery. Every year, along with MONADA, the whole nation pays a great deal of attention to these sports during Mongolian national festival Naadam.

Six (6) anti-doping rule violations were reported during this year. 2 bodybuilders, 1 power lifter and 3 traditional wrestlers received a four-year sanction for the presence of one or more anabolic agents and diuretics and masking agents in their samples.

MONADA provided two outreach programs at the venue of Wrestling national team selection competition and Boxing National Championships. Through the outreach programs, MONADA provided various anti-doping information by face-to-face discussions and distributing hand-outs. Athletes played WADA Quiz and found information on drug use and why it is banned. In addition, MONADA carried out several anti-doping education programs to 1100 athletes, coaches and other athlete support personnel over the year.

### 1. Total Number of Test: 220

Male	167 / 75.9%
Female	53 / 24.1%
IC	177 / 80.5%
OOO	43 / 19.5%

IC- In Competition / OOO – Out of Competition

### 2. 2022 Doping Test Statistics

Sport	Q1	Q2	Q3	Q4	IC	OOO	Total
